

Welcome To
Victory Lane
The Ultimate Lifestyle Development

Please let me introduce you to Victory Lane. Our team has created what I believe to be the ultimate lifestyle development for motorsports enthusiasts and their families. Victory Lane is an unprecedented opportunity to own a part of history. The 3,000-acre complex in Georgia is created for 120 families and their guests and features a number of world-class amenities – all built with environmentally sensitive green technology and powered by renewable energy. There is a private runway, signature 18-hole golf course, equestrian facility, and a clubhouse with spa on a 40-acre fishing lake. But the real treasure is the Motor Sports Complex. Victory Lane is building a private road course that will offer an enduring challenge to any driver who can explore the limits with a high degree of safety

built in. Offering a multitude of layouts and corners, the 4.5-mile course presents both the journeyman driver and the most skilled professional endless hours of training and fun. Let me be the first to invite you to join us and create your family's motor sports legacy at Victory Lane.

Kind Regards,

Phil Hill
